

I represent those asking you not to allow LPFM stations to take priority over FM stations. The station I listen to, K-LOVE, is an integral part of quality of life for my family. K-LOVE is a station that my family can listen to at any time with no worry of inappropriate content. Many local friends rely on K-LOVE for encouraging and uplifting music and information. If K-LOVE were displaced by other programming, I simply would not listen to the radio. As a listener supported station, K-LOVE would lose valuable support. K-LOVE is a huge advocate and supporter of local charities and is a vital part of our community. This community would suffer greatly to lose the quality programming provided by K-LOVE. There is a large contingency of Christians in my community and a great percentage rely on stations like K-LOVE to represent their choice in music and family-friendly radio. We ask you to reconsider the ruling giving LPFM stations priority. It is not in our best interests, nor in yours. Thank you.
